Dear Senator,

I like to asked for you to withdrawal your co sponsor of Bill 112. I have witnessed first hand our mandatory arbitration act have helped improved the quality and access to care on Guam. In fact, should you continue to support 112, my clinic will have no alternative but to further limit access, unable to care for high risk patients and that includes our maternal fetal medicine specialist Dr Hirata as well. Furthermore, our plans to increase access for additional rotating specialist for Gyn Onc among others for cancer treatment will be halted. We have saved many mothers, and their babies over these last 25 years, and our mandatory arbitration act has been part of this critical life saving progress.
