Dear Honorable Speaker Terlaje,

I am writing to voice my opposition to Bill 112.

If passed, this bill will make it impossible to obtain proper malpractice insurance on Guam.

As a result, it will be impossible to recruit or retain medical providers on Guam.

An increasingly litigious environment here will only aggravate our health care shortages. Our hospitals will become even more overwhelmed and patient care will suffer with fewer providers.

It is unfortunate that the legislature is proposing a hostile law during the pandemic, which highlighted the true value of front-liners on Guam in caring for our people in the worst of times.

Sincerely,

Jitka Lom MD
